### **Calgary Kitchen Manufacturer “Builds” on Technology**

*Calgary based Kitchen company adds new CNC Router to their warehouse arsenal*

Calgary, Alberta (October 29th, 2009) – Signature Kitchen Builder President James Agnew announced today that the company has purchased a brand new CNC Router for the kitchen manufacturing department of the company. The CNC Router is a computerized precision drilling router that will speed up production time by up to five times the normal speed. “We are excited about this acquisition, the new router automates our drilling, and offers more exactitude and flexibility in our product” commented Agnew.

There are two distinct benefits for clients: For the consumer, Signature Kitchen Builders will have the ability to be even more creative with their customizations, adding unique features such as customized curves. For the commercial client, manufacturing production times will speed up even more, allowing for kitchens to be produced and distributed in perfect condition, and on time to meet tight deadlines. The new CNC Router is set to be in full operational mode by November 1st, 2009.
